

Business Administration

Are you looking for an exciting and rewarding career? A degree in business can provide many different job opportunities.

According to the U.S. Bureau of Labor Statistics, business and financial operations occupations are projected to add 1.2 million new jobs, growing 17 percent, from 2010 to 2020.

Businesses today are increasingly focusing on the triple-bottom line of sustainability: ways to minimize their environmental impact, remain economically viable, and promote social responsibility. Our programs are built on these key priorities of a new reality. We are teaching students how to create the jobs of the future by having specialized classes in entrepreneurship. These two mega-trends — sustainability and entrepreneurship — are going to define the twenty-first century.

Why HSU?

- Programs are interdisciplinary
- Specializing in entrepreneurship & sustainability
- Personal advising with dedicated faculty
- Small classes that promote active learning
- Paid internship opportunities for practical training
- Many opportunities for scholarships
- Professors who care deeply about your success

We create a nurturing and challenging learning environment that prepares you for an exciting future.

Come and meet one of our professors.
