**Forestry**

**Bachelor of Science degree with a major in Forestry** — concentrations in: Forest Hydrology, Forest Operations, Forest Restoration, Forest Soils, and Wildland Fire Management

**Minor in Fire Ecology**

**Minor in Forestry**

**Minor in Watershed Management**

See Natural Resources for details on the Master of Science degree.

**Department Chair**
David F. Greene Ph.D.

**Department of Forestry and Wildland Resources**
Forestry Building 205
707-826-3935
humboldt.edu/fwr

**The Program**

Students completing this program will have demonstrated:
- understanding of taxonomy, autecology of trees, plant and wood identification; physiology of trees; ecological concepts, ecosystem processes, structure and function; soil formation, classification, composition and properties; silvicultural principles, stand structure and composition; growth and quality of forests and forest health; fire ecology and use of fire; entomology and pathology; wildlife and fish ecology; plant, soil, water interactions, watershed processes, land measurement, mapping, photogrammetry, remote sensing; sampling theory and methods, statistical literacy, measurement of trees, forests, and forest products; wildlife habitat assessment; measurement of water yields and quality; assessment of non-timber forest values; integrated forest management, multiple-use principles; stand scale management; system and landscape management; forest engineering and road design; harvesting systems; utilization; policy development, sociological influences; administration, environmental regulation; land and resource planning; budgeting, finance, personnel management, cost, and economics
- capable practice of critical thinking; writing, quantitative thinking, public speaking, debate and persuasion; leadership; group cooperation; conflict resolution; time management; professional integration; independent life-long learning; computer literacy and skills
- the attributes of adaptability; integrity; open-mindedness; professional decorum.

Humboldt State University is located in the heart of the coast redwood forest. This environment provides outdoor classrooms for more than half of the forestry courses. Field trips illustrate lecture concepts and teach field techniques.

Excellent on-campus laboratories complement the outdoor lab. Students have access to the college forest, the Schatz Tree Farm, public and private forest lands, and various production centers. Because Humboldt County also has a large forest products industry, Humboldt State is an excellent place to study the resolution of environmental issues with economic concerns.

Students and faculty interact with professional forest managers and researchers of the region both in the classroom and in the field.

Forestry is an incorporative discipline, drawing from the biological, physical, social, and managerial sciences. The curriculum aids in understanding the biological complexities of the forest and the interactions between the forest and social and economic demands.

The program provides sufficient background and depth of education to give a sound basis for professional growth within a broad range of forestry-related careers. Our graduates often start as forest rangers, park rangers, fire fighters, timber cruisers, or surveyors. Some hold staff positions in the federal and state agencies, forest products industry, or with environmental organizations. Graduates go on to build careers in: wildland fire management, forest management, forest protection, park management, watershed management, forest biology, forest engineering, industrial management, resource planning, forest restoration, and research and education.

Visit our webpage at humboldt.edu/fwr.

**Preparation**

In high school, take a broad background. Biological/physical sciences, mathematics, social sciences, and the arts are helpful.

**Requirements for the major**

For a description of degree requirements to be fulfilled in addition to those listed below for the major, please see “The Bachelor’s Degree” section of the catalog, pp. B7-B2., and “The Master’s Degree” pp. B3-B4.

Students must complete all courses in the major with a C or better.

**Core Courses**

**Lower Division**

At least one course in a basic biological science that meets general education requirements and is comparable to BOT 105 General Botany (4 units).

At least one course in a basic physical science that meets general education requirements and is comparable to CHEM 107 Fundamentals of Chemistry (4 units).

Plus the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ESM 105</td>
<td>[3]</td>
</tr>
<tr>
<td>FOR 130</td>
<td>[3]</td>
</tr>
<tr>
<td>FOR 131</td>
<td>[3]</td>
</tr>
<tr>
<td>FOR 210</td>
<td>[4]</td>
</tr>
<tr>
<td>FOR 222</td>
<td>[2]</td>
</tr>
<tr>
<td>FOR 223</td>
<td>[2]</td>
</tr>
<tr>
<td>FOR 250</td>

Plus one of the following:
FISH 300  (3) Intro to Fishery Biology
GEOL 306  (3) General Geomorphology
RRS 306  (3) Wildland Resource Principles

**Forest Hydrology Concentration**

Core courses plus:

**Lower Division**

GEOL 109  (4) General Geology
MATH 105  (3) Calculus for the Biological Sciences & Natural Resources
PHXY 106  (4) College Physics: Mechanics & Heat, or
PHXY 109  (4) General Physics A: Mechanics

**Upper Division**

SOIL 467  (3) Soil Physics
WSHD 333  (3) Wildland Water Quality, or
WSHD 424  (3) Watershed Hydrology

This program meets the qualifications for “Forester” and for “Hydrologist” in federal employment.

**Forest Operations Concentration**

Core courses plus:

FOR 350  (3) Forest Harvesting Systems
FOR 353  (3) Forest Road Location & Design
FOR 450  (3) Harvesting Systems Design & Cost Analysis
FOR 475  (3) Forest Management Decision Making
FOR 476  (2) Advanced Forest Management

Plus one of the following:
FOR 423  (3) Wildland Fuels Management
FOR 431  (3) Forest Restoration
WSHD 458  (3) Climate Change & Land Use

This program meets the qualifications for “Forester” in federal employment.

**Forest Soils Concentration**

Core courses plus:

FOR 353  (3) Forest Road Location & Design
FOR 374  (3) Wilderness Area Management
FOR 423  (3) Wildland Fuels Management
FOR 431  (3) Forest Restoration
GSP 370  (3) Intermediate Geographic Information Science (GIS)
RRS 430  (3) Wildland Restoration & Development
SOIL 468  (3) Intro to Agroforestry
WSHD 424  (3) Watershed Hydrology
WHSD 458  (3) Climate Change & Land Use

This program meets the qualifications for “Forester” in federal employment.

**Wildland Fire Management Concentration**

Core courses plus:

FOR 321  (3) Dendrology
FOR 311  (3) Forest Ecology
FOR 210  (4) Forest Measurements and Biometry
FOR 315  (3) Forest Management

Plus one of the following:

FOR 302  (3) Forest Ecosystems & People
FOR 321  (3) Fire Ecology
FOR 374  (3) Wilderness Area Mgmt.
FOR 431  (3) Forest Restoration

This program meets the qualifications for “Forester” in federal employment.

**Fire Ecology Minor**

See Fire Ecology

**Forestry Minor**

Required courses:

FOR 130  (3) Dendrology
FOR 131  (3) Forest Ecology
FOR 210  (4) Forest Measurements and Biometry
FOR 315  (3) Forest Management

Plus one of the following four courses:

FOR 302  (3) Forest Ecosystems & People
FOR 321  (3) Fire Ecology
FOR 374  (3) Wilderness Area Mgmt.
FOR 431  (3) Forest Restoration

**Watershed Management Minor**

See Watershed Management

**Requirements for the Minors**
