Bachelor of Science degree
with a major in Kinesiology —
concentrations available in Exercise Science/Health Promotion, Physical Education Teaching, or Pre-Physical Therapy

Minors in Kinesiology & Health Education
(20 units of coursework approved by the department chair)

Master of Science degree in Kinesiology —
Advanced study to prepare graduate students for doctoral and professional programs and careers in the promotion of physical activity.

Single Subject Credential
(see Physical Education Teaching Concentration leading to a single subject credential)

Department Chair
Rock Braithwaite, Ph.D.

Kinesiology & Athletics 305
707-826-4536
humboldt.edu/kra

The BS Program
Students completing this program will have demonstrated the ability to:
- identify and explain the concepts of kinesiology
- analyze, synthesize, and evaluate relevant information from scientific literature to inform professional practice
- demonstrate effective written and oral communication for the discipline of kinesiology
- apply knowledge and skills from kinesiology to promote health and physical activity, and optimize performance among diverse populations.

Humboldt provides students with three new state-of-the-art laboratory facilities, including the human performance, biomechanics, and behavioral performance labs. A natatorium, plus two gymnasiuins, dance studio, an all-weather track and field, cross-country trails, stadium, and two playing fields round out the facilities. In addition to their academic coursework, students develop their skills through fieldwork and practicum experiences in their areas of study.

Preparation
High school students should take the college preparatory program plus biology, math, anatomy, and physiology. Participation in intercollegiate sports, physical activities, and a computer course are encouraged.

Requirements for the Major
For a description of degree requirements to be fulfilled in addition to those listed below for the major, please see "The Bachelor's Degree" section of the catalog, pp. 87-82. The Upper Division Area B General Education requirement is met by the coursework within the Bachelor of Science degree for Kinesiology.

Students must earn a C- or better in all required courses for the major that have a KINS, ZOOL, REC, or HED prefix (or their equivalent, in the case of courses transferred from another institution).

Core Courses (for all concentrations)

Select one of the following concentrations and complete all requirements. (33-38 units)

Exercise Science/Health Promotion Concentration
Students select courses in consultation with and approval of their advisor. Suggested coursework includes, but is not limited to:

Exercise Science Emphasis

Health Promotion Emphasis
In consultation with an advisor, students may select courses that qualify them to sit for the Certified Health Education Specialist (CHES) examination.

Students in the Pre-Physical Therapy concentration must take BIOL 105.

Students in the Exercise Science/Health Promotion or Physical Education Teaching concentrations may take BIOL 104 or BIOL 105.
HED 390  [3] Design & Implementation of Health Promotion Programs
HED 446  [3] Optimal Bone & Muscle Development
KINS 447  [3] Pharmacology & Ergonocics

Physical Education Teaching Concentration

Prepare to teach physical education in junior high and high school. (For information on the preliminary teaching credential, see Education. See the program listing for Adapted Physical Education for credential information.)

Graduates also enter careers as intramural directors, health spa instructors, coaches, recreational directors, sports program directors, and camp directors.

In addition to core academic courses, students enroll in activity courses which help them develop fitness and performance skills. Humboldt’s Human Performance Laboratory offers modern equipment. Other facilities include two gymnasias, an indoor pool, an all-weather track, cross-country trails, a field house, weight room, and stadium.

Kinesiology core [35-36 units] + Physical Education Teaching Concentration [31 units] = 66-67 units for the major.

Concepts of Teaching [14 units]
KINS 325  [2] Health-Related Exercise
KINS 327  [3] Games Concepts 1

Additional Requirements [17 units]
REC 302  [3] Inclusive Recreation (DCG-d)
HED 405  [3] School Health Programs
KINS 384  [3] Curriculum & Instructional Strategies in Physical Education
KINS 385  [3] Adapted Physical Education
KINS 475  [3] Elementary School Physical Education

Please note: Degree requirements listed above do not include the professional education courses required for a teaching credential. Students earning this degree may waive CSET assessments before entering the credential program. Before applying to the secondary education credential program, students must meet the prerequisite of 45 hours early field experience or enroll in KINS 490, and must enroll in EDUC 285 or equivalent.

Pre-Physical Therapy Concentration

Careers in the health care industry are increasing and completion of this concentration provides the academic requirements necessary to enter a graduate program for physical therapy or other health professions such as occupational therapy, nursing, physician assistant programs, medical school, or prosthetics and orthotics. Upper division electives built into the curriculum (upon consultation with and approval of their advisor) allow students the flexibility to take additional classes required for the graduate program(s) they are interested in attending.

Students also have the opportunity to gain more knowledge and experience in the physical therapy [and related] fields through a practica experience. During these placements in local physical therapy clinics and hospitals, students learn the basic skills to provide patient care and the essentials of evidence-based practice alongside physical therapists. In addition to being immersed in the field and accumulating observational hours needed to apply to graduate programs, students also attend presentations by current graduate students, physical therapists, and other health professionals, as well as workshops to help students’ preparation for applying to graduate school.

Kinesiology core [36 units] + Pre-Physical Therapy Concentration [38 units] = 74 units for the major. (15 units double-count for LD GE requirements).

Lower Division [27 units]
CHEM 110  [5] General Chemistry II
PSYC 104  [3] Introduction to Psychology
SOC 104  [3] Introduction to Sociology

† Course has a prerequisite of MATH 101T (3) or MATH 102 (4)

Upper Division [11 units]
PSYC 438  [3] Dynamics of Abnormal Behavior; plus
(8) Upper-Division Major Electives

Requirements for the Minors

Please consult the department chair for current requirements.

Requirements for the Master of Science Degree

Graduates are prepared for careers in a wide range of professional roles that include worksite health promotion, clinical exercise physiology, cardiac rehabilitation, commercial fitness, public/private or non-profit health agencies, obesity/diabetes and heart disease prevention and treatment, teaching/coaching, independent research in a field of specialization, or continued graduate study at doctoral granting institutions. The curriculum and coursework in the Kinesiology MS degree program is designed to meet the mission of preparing students to be leaders in the fields of physical activity, health, and disease prevention and treatment. The common theme that binds us together is the study of physical activity and relationships with health and human performance.

The MS Program

Students completing this program will have demonstrated the ability to:
- apply advanced concepts and theoretical constructs in kinesiology
- design and implement research in kinesiology
- critically analyze, evaluate, and synthesize the scientific literature in kinesiology
- synthesize and present data relevant to specialization areas within kinesiology
- interpret, evaluate, and apply the scientific literature in kinesiology to promote health and optimize performance among diverse populations.

Admission

Applicants must submit the names of three references, including contact information, and a statement of intent with their application. Two admission options are available:

Postbaccalaureate

In addition to Humboldt State University requirements, the Department of Kinesiology and Recreation Administration requires the following criteria be met for admission to the program as a classified graduate student:
- a bachelor’s degree in Kinesiology or Exercise Science from an accredited
Students may be required to complete foundational coursework depending on their selected graduate program of study:

- a minimum undergraduate grade-point average (GPA) of 2.75 in the last 60 semester units (a 3.0 GPA is preferred).
- completion of the Graduate Record Examination (GRE) for verbal reasoning (148 minimum), quantitative reasoning (140 minimum), and analytical writing (3.5 minimum) must be submitted as part of the application process prior to admission.

A student may be conditionally admitted to the program if:

- The undergraduate degree is in a field other than Kinesiology or Exercise Science.
- Students will be required to complete 12-15 units of foundational coursework as approved by the graduate program coordinator. These courses must be satisfactorily completed with a grade of B- or better.
- The GRE scores or GPA are below the required minimum.

Four plus One (4+1) Program (pre-baccalaureate)
A student can apply in the junior year after completion of at least 24 units of undergraduate coursework in Kinesiology, with a GPA of 3.25 or higher in KINS coursework.

International Student Addendum
International students must achieve a minimum TOEFL score of 550 (213 on computer-based test; 80 on internet-based test) that was received within two years of applying to HSU. The score must be sent to us directly by the Educational Testing Service (ETS); or

- a minimum IELTS score of 6.5 that was received within two years of applying to HSU. The score must be sent to us directly by the English Language Testing System (IELTS).

Course Of Study
Required Core: 9 units
In-Depth Area of Study: 9 units
Directed Elective Courses: 9 units
Capstone: 6 units
Total: 33 units

Required Core (9 units)

- All students must complete the following core courses:
  - KINS 610 (3) Statistics for Kinesiology
  - KINS 635 (3) Research Methods in Kinesiology
  - KINS 695 (3) Directed Field Experience, or
  - KINS 699 (3) Independent Study

In-Depth Area of Study (9 units)
Students select an in-depth area of study in consultation with a major advisor. Courses should support the student’s area of research and professional goals. These courses should be graduate level (500-699), with allowance for upper division level courses (300-499) on a case-by-case basis.

Directed Elective Courses (9 units)
Courses should support the student’s professional goals. These courses should be graduate level (500-699), with allowance for upper division level courses (300-499) on a case-by-case basis.

Capstone (6 units)

Thesis/Project Option. Recommended for those planning to attend a doctoral/advanced professional program or preparing for a research-based career. An oral defense of the thesis/project is required.

KINS 690 [1-6] Thesis Writing Seminar or

Comprehensive Exam Option. Students in this option will complete a comprehensive written exam based on the focus of the curriculum.

KINS 691 [0] Comprehensive Exam and

Students in this option will complete an additional six units of coursework.
