**Environment & Community**

This is a two-year, interdisciplinary graduate program focused on understanding and advancing sustainability and community resilience within the context of social and environmental change at multiple scales. The program is committed to conceptually rigorous, applied research on sustainability and equity in a manner that transcends a nature-society dichotomy. Students explore these topics through graduate seminars in three curriculum areas: economic and political dimensions; socio-cultural dimensions; race, class, gender and place; and environmental dimensions. Capstone topics for graduate students in this program include the following general themes: sustainable food systems, community-natural resource management interactions, environmental and social justice, environmental education, Native American/indigenous natural resource management, and sustainable urban communities. Our graduates pursue successful careers in the nonprofit sector, education, private sector, and public sector.

**ADMISSION/PATHWAYS**

**Postbaccalaureate Candidate Pathway**

- Completed BA or BS degree
- GPA not less than 3.0 in the last 60 units of college coursework
- Three letters of recommendation
- Candidate essay describing goals and interests
- Ten-page writing sample
- Graduate coordinator approval after faculty committee review of application file

**Dual Degree Pathway (3+2 BA and MA Degree)**

The E&C program has developed, in conjunction with select undergraduate majors, dual degree (3+2) pathways that enable exceptional students to simultaneously earn a bachelor’s and a master’s degree in five years. Although the pathway does not change undergraduate major nor graduate degree requirements, students in the program seamlessly progress from undergraduate to graduate status. Students are eligible to apply for the pathway upon completion of 60 units. A faculty committee evaluates student applications. Participation is based on prior academic performance and other measures of academic excellence. Contact the E&C coordinator for majors that participate.

**Course Requirements (36 units)**

- One three unit proseminar, Environment & Community Research (EC 610), taken during first semester
- One three-unit research methods elective, chosen from an approved list, to be completed no later than the third semester
- One unit Graduate Colloquium (EC 615) for three semesters
- One additional course at the graduate or upper-division undergraduate level from a list of elective options approved by the graduate coordinator
- Six units of Master’s Thesis or Project (EC 690)
- Three units of field research or independent study, (EC 695 Field Research)
- 15 units of graduate seminars developed specifically for this program. Students take at least one seminar from each of the following three curriculum areas. Seminars are developed by the advisory committee comprised of program faculty.

**Curriculum Areas**

**Economic & Political Dimensions** (EC 620) (some topics below), and Energy, Environment, & Society (ENGR 532).

- Politics of Sustainability
- Globalism, Capitalism, and Environment
- Political Ecology

**Socio-Cultural Dimensions** (EC 630) (some topics below)

- Community and Place
- Klamath River Issues
- Socioeconomics of Natural Resources in the Mattole

**Ecological Dimensions** (EC 640) (some topics below)

- Ecosystems and Society,
- Conservation Ecology and Society
